
FULL Windows Longhorn 4074 R2 (idx02)

February 23, 2017 - I haven't done this yet, but you guys are having trouble installing Microsoft Windows NT 6.0.4074.idx02.040425-1535 / Windows Longhorn. This is not what you need. Use it to install Windows NT 6.5. Windows Longhorn will continue to run on Windows NT 6.0. And don't worry. Do not worry. Don't worry, but wait a little. Windows NI 6.0.4074.idx, when it was released, included all the features of Windows NT 6.0. So you can use it to install Windows NT 6.0. Windows 8 will work. Windows 6 will work. Windows 10 will work.
